CONTACTLESS AND CONVENIENT

FIRST VISIT

Guests register at a self-service **kiosk**, that verifies guest identity, scans passport and issues a pass.

SECOND VISIT

At the next visit, this person will automatically receive a **QR code** for access.

Forget about ID cards and guest passes which can be lost or used by unauthorized people
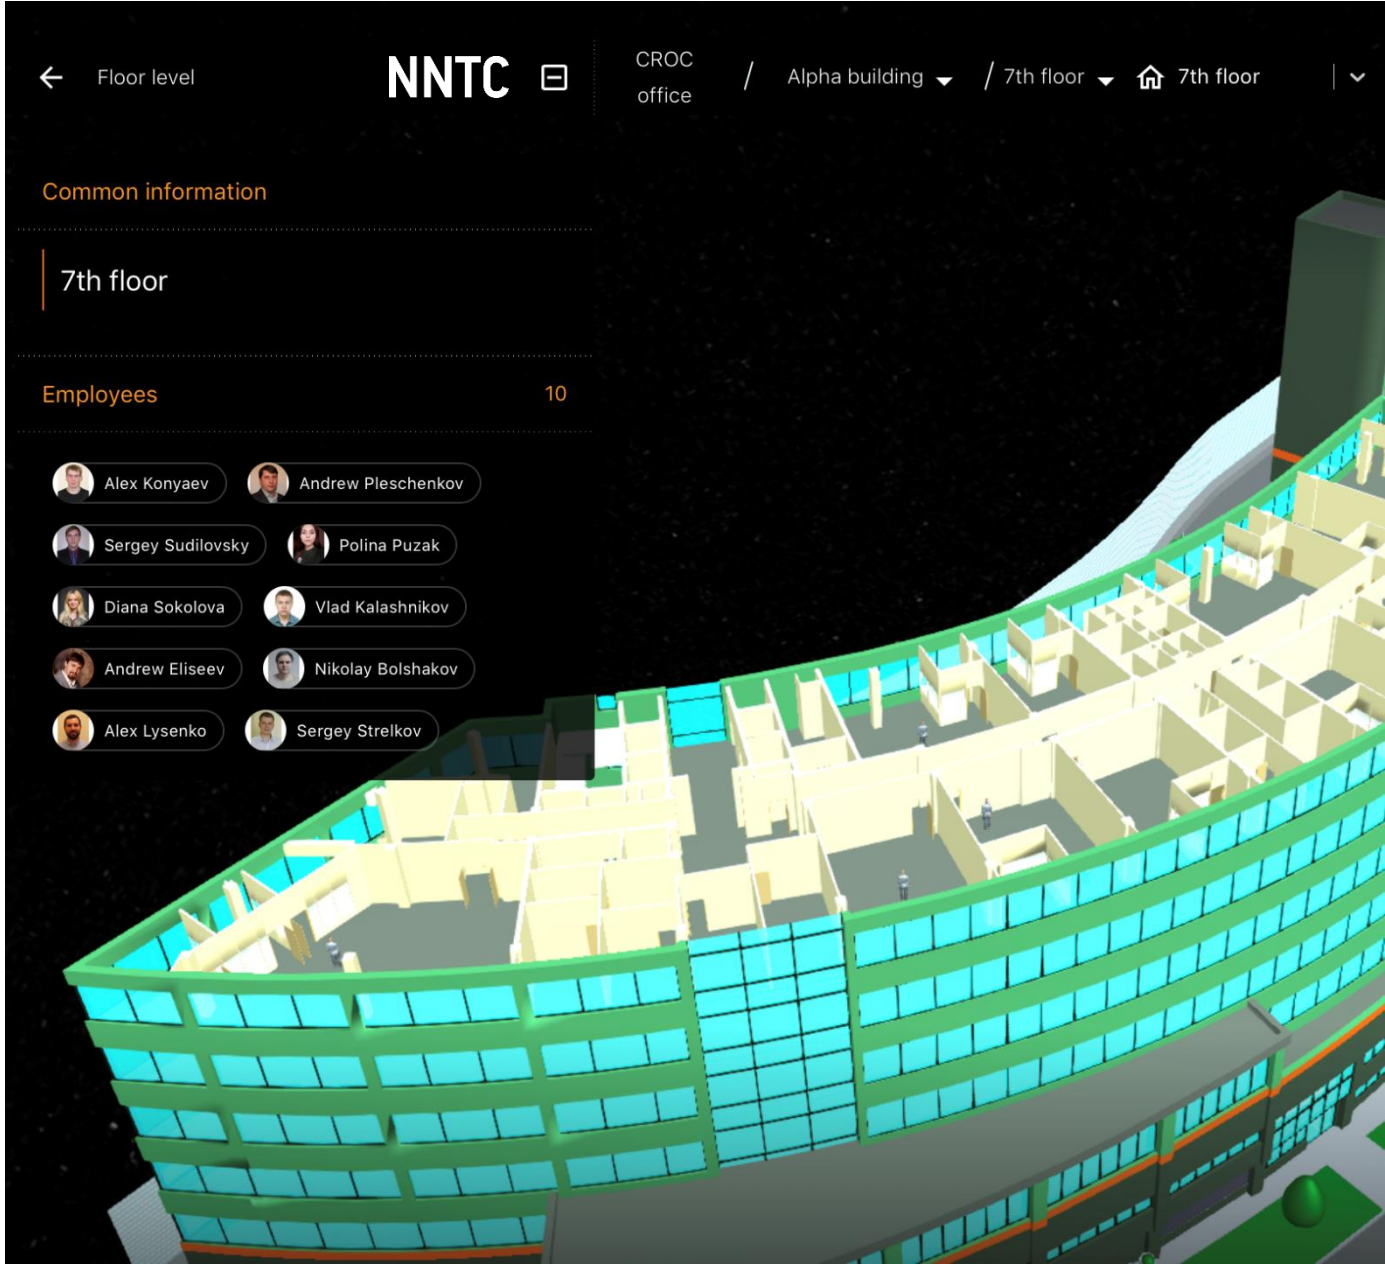

OPTIONAL INTEGRATION

- Access control
- Entrance doors
- Navigation software
- Turnstiles
- Etc.

NNTC 005

INTERACTIVE LOCATION MAP

3D MAP

- Tracks visitors

- Displays their location on an interactive 3D-map of the office

- Controls the length of their stay

- Notifies when it's time to leave

- Warns if the area is restricted

- You can get detailed reports of employee attendance and movement

NOTIFICATIONS AND ALERTS

The system sends a **wide range of notifications**:

- Guest arrived
- Pass is expiring
- Pass expired
- Guest is about to enter restricted area
- Guest entered restricted area
- Guest forgot a card
- Pass validity and meeting location
- Etc.

AUTOMATED CAR PASSES

- Guests automatically get access to the parking lot.

- Car's plate number is recognized and compared with pass info.

- The system runs a match check between the guest's face and pass photo.

ATTENDANCE CONTROL

Create a friendly environment for your employees with invisible and contactless attendance control system based on video analytics and AI.

- High accuracy of check-in/out

- Check-in/out (face recognition) in less than a second

- Unobtrusive control over employee time & attendance

- Dress code control

The solution helps **prevent** unauthorized use of lost or stolen passes and **reduces the risk** of attendance fraud

DRESS CODE CONTROL

Attendance Control recognizes whether an employee is in compliance with the **dress code**

EMOTIONAL RESPONSES

- Evaluate the quality of services provided by your organization with Video Analytics add-on module of **Emotion Recognition**

- **Distinguishes five basic emotions:** happiness, sadness, neutral

- You will have a deeper understanding of how your clients are satisfied with the customer service
